SUMMARY

Senior Product Designer with 11 years in UX and a front-end development background. Recent work focuses on government and enterprise platforms in Saudi Arabia: service flows, data-heavy dashboards and token-based design systems, in Arabic (RTL) and English. Works closely with developers so designs hold up once they are built.

SELECTED WORK

Federation of Saudi Chambers platform & dashboard · Balady gamified app & design system · Dhamer Hajj & Umrah app · Ajdar fintech dashboard
